SUMMARY

Front-end Web Developer with 3+ years of experience in website and web application developing. Collaborative, attentive and customer oriented, my experience is in turning costumers' wishes into perfect projects.

EXPERIENCE

Software Developer Feb 2022– Present

The Idea Compiler– Novi Sad, Serbia

Working with design team and translate their designs into new features. Solving problems and improve or create new solutions. In charge of the logical parts of the app (Frontend) and parts related to design. Doing research for potential solutions.

Working on the backend as well. Used technologies:

- HTML / CSS / JavaScript / Vue.js (Vuetify, Vuex)

c# / .Net / SQL

- On daily basis: AWS / JIRA / Redmine / Debugging Tools

Software Developer - Internship

Nov 2021– Dec 2021

VegaIT – Novi Sad, Serbia

Building single web app page in React.js environment. Writing test units for multiple components and improving skill for debugging apps with debugger tools.

Front-End Web Developer

Jan 2020 – Jun 2021

Fiverr – Freelance Services

Repairing web applications also working as technical support. Implementing new features to existing web applications. Creating landing pages, SEO optimization.

Front-End Web Developer - Internship

Nov 2019 – Feb 2020

Twilo Creative – Pontefract, United Kingdom

Optimizing and debugging web projects across screen sizes, browsers, mobile/desktop. Proposing functional improvements to new or existing projects.
